Views only out of its context a WiFi SSID Broadcast name of *GrammaGimmeGummie* should not mean to much to anyone or me.

This one pixel of information is part of the larger the book the Medical State tells of use of a Behavioral Health Care system of assault on me which as on a surface level been racial and religiously motivated people taunting me over the FOXP2 language defect gene I carry which leads to clipped writing I carry, and I believe is part of the MKUTRA history of that gene which is also ARTICHOKE having dry throughout problems, and ted to that gene and Borderline Personality Disorder, all slight fine nuero continuous control problems with attention, continuous focus, and things like reading and writing.

My writing is a cognitive deficit including both the Dysgraphic handwriting Albert Einstein and Price Edward VIII had, and I have, and my speech is spasmodic, another trat of the gene, the gene which ties to espionage agencies and espionage ties to my father and mother having been involved with the CIA and other programs.

Sexual humiliation of me in public, those pacing teens tots, or other females near me while shouting things like "you are a jerk off Ed Donegan" or "You are a Bear!" as if I had anything to do with those females planted near me.

I looked it up and a *Bear* is an older man who stalks or is interested in younger women or minors.

The state of Texas is religiously and in other ways retarded and abusive and people like Gregg Abbot who have confused ideas about sexuality are both studying my Pagan Deism

while also trying to humiliate me by as me masterbating in publc, and accsuing me in public of doing so in public .

That theory, humiliating to me and my religion, and factually wrong, creates a different religions claim, that claim being the Dopple of Ed used the a minor as pornogray they the real Ed owes DNA penance to that religion.

In abusive use of Behavioral Health Care the United States now uses it for Organized Stalking which attempts to humiliate, provoke, and and create violent emotions in those targeted by Behavioral workers in PsyOps and in the arbitrary system of targeting of law abiding system critics of the government find themselves targeted and often die in CIA infiltrated health care systems, deemed mentally incompetent, and not on suicide watch.

The religious abuse system is Health Care claims if females treat me in a sexually abusive or inappropriate way they are my "fapping" idols in my mind and I owe them as my pornography>

I have stated for 7 yeas I never authorized any of my DNA and if any who have my parents DNA by abuse of me will be burned to death and eery molecule of their bodes destroyed as the process of religious justice.

I have never been able to escape abusive treatment of me in full view of the public as white women of normal reproductive age are threatened with death if they are near me nor the death threats to me conduct with police watching if I ever walk down the street, leaving my apartment.

These actions are from a CIA, FBI, NSA, DARPA system of illegal activities tied to the Manhattan Project work of Sidney Gottlieb and the USA need, the British need, the elites of the USA need to make sure my branch of secret family line does not live normally or meet my own death normally.

Who I am is very difficult to determine

In order to entangle with me in a sexually abusive way women will give themselves names like "Dominiue" or "BJ" and males use names which I repeat suggest I have schizoprhenic anthropomorphizing expressed psychiatric symptom.

Condemning me in into skid row unwanted health care including unwanted religious services of other religions create an entrapment to fake and settle claims which serve the

function of sham robbery and missue of my and my family's assets.

I note earlier in this book

1. Military Intelligence uses Dopple to create informatoin not sourced from the person being imitation

2. The person being immited can be the victim of claims he or she is paranoid of mentaly ill, and that the stalking does not really exist, thus the activities of the dopple are protected from being called out

As this book chronicles since the 1990s (now it being 2021) there have been Dopples of me which appear to be cut outs of the real Edward Donegan who will provide what information or agreement from Edward Donegan is wanted but Edward Donegan would not provide or was never even informed of.

A likely early claim of use of genome to settle a peeping debt when from my Silicon Valley apartment I pointed my camera used for bike rides as the community pool where Stanford "hotties' and PhD upscale women sunbathed.

When I cam back from my daily chores that day, getting a 12 speed bike tune for a long ride in the mountains, only children were on the tape which was NOT the normal scene of that poo.

Money was pretty good that at AOL Netscape as my bank account lept up in balance more rapidly than I expected. Taking a moment to recover the the disappointing of my pool haul in the net I examined by bank statement to find I was being paid once a week not every other week thus doubling my salary.

When I approached AOL payroll they were abuse about how dare I try to defraud them an demanded a quick payback program I agreed to, less than two months, though this co-incided with a person name Toni, Irish looking with red hair (I had no hair) wearing clothes like mine around, carrying my signature folio thpe of choice I use anywhere for organization in any meeting type environment, and oddly AOL was highly hostile, called me severely emotionally ill, and fired me very quicly.

I was lured to AOL by my brother suggesting a job there to me and I think since that time every moment of my life fighting of Dopples of me has been a covert war against what I would agree to, if asked, and what covert agencies and others have needed from a Dopple of

me, agreement to the illegal practices of Sindey Gottlieb and the Manhattan Project, thus making those involuntary sciences and biological programs legal.

[If given a chance I probably could have desktop published some birth certificates for those swimming to vixens that they were 21 and ready to sill Mikes Hard Lemonade with me on my porch.]

Who am I? It is not just and AOL Time Warner question, and it is the most important unsolved, unsettling, and disturbing questions of my life and lifespan

> *wetdrunk calling substance abuse recover:*I am on floor too drunk to stand up"
>
> *Member of substance abuse recovery:* "Stay there. It is the safest plance to be. You can fall down from there."

The single most fear I have ever had, the only fear that is the sum of all fears, is I am never without a Dopple, ever in my life, and my residence unit number (cell, hospital bed in shared room or homeless shelter or apartment or drivers license or pained unit number versus floor plan) has every been correct once in my life, and in fact a complex mathematical machinery of switch ins and switch outs assembly line style of a Dopple of me, the wrong ID cards, the wrong physical location, and often someones speaking for me, and or electronic forgeries or telecom cross-wiring of my physical location have been a every moment of my life struggle and there no great fear I would ever have than it being right once, in that condition the Government is in danger of the truth and thus I am in danger of death.

I am trying to stay on tack here about the conditions I live under rather than why those conditions exist but I think Malcom X, Jeffery Epstein, and I have or are evidence the FBI CIA DAPPA Espionage state run by a cartel elite killed JFK to keep DARPA Brain program studies underway, and like Malcom X and Jeffery Esptien the existence of the truth of me and FOXP2 would get many killed by the rule of law in the Electric Chair.

> From earlier in the book

Donald Barr (AUGUST 8, 1921 - February 5, 2004) was an American educator, writer, and Office of Strategic Services (OSS) agent. He was an administrator at **Columbia University** where he recruited Brain foundation scientist Jeffery Epstein. William Pellham Barr Attorney General, Bush white house laywer and himself CIA, ruled Epstein hanging suicide, though on JULY 4TH WEEKEND, ODDLY, TIME WITH MALIA ANN OBAMA BIRTDAY OF JULY 4 1988, I think her genetic 3rd party patenting by Jeffery Epstein and tied to the fime frame of illegal activities targeting me and allegation of my mental status.

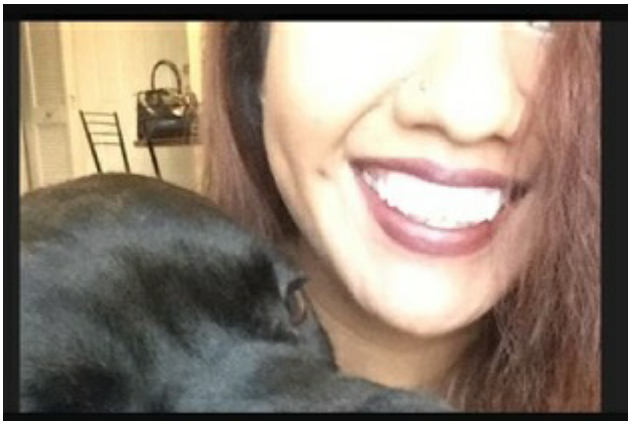
[At least one of the Obama children was in vitro fertilized and had a brain infection.]

But back to the point now of the circumstances of the conditions of my lifespan inside the United States of America, basic human rights and human principles are not being honored, like being free of Covert espionage harassment under color of law, defrauded, denies due process, subjected to black oops backed long cons, any other form of embarrassment.

The harassment I document is the basis of my claim to be free of the United States of American and its illegal or human rights abusing programs.

A person identifying herself as Cynthia Nino. Agents In Place, covert operatives, can be placed by co-operation or changes in ownership or management such that co-operation and property rights are not extended to me when in fact they ARE due to me

I did not Stand My Ground and move into my Austin leased apartment, but returned to Corpus Christi on threat of arrest if I tried to take occupancy of my apartment, threat by this woman calling herself Cynthia Nino



The core path of this has been to Conspire Against Rights, socially engineer I do not belong in normal

locations nor do I have normal rights and instead as a mentally defective person I should fall down through the drain of a skid row housing unit as a racist and pedophile, the only housing a person like me would have ever had anyway.

I have called this the "chattering teeth social engineering ploy" where a social engineering social sabotage situation is setup by people talking up anyone in my permiter, the chattering teeth telling people to not co-operate with me or not to allow the normal progression of my life or activities

I was given flimsy excuses like their were bugs in the apartment so it wasn't ready, or the hurrican henry which has passed over almost that day made me one dayh late so the lease paid in full and with depost was cancelled. Bear in mind I was driving the rental Uhaull full box back truck with my motorcycle and apartment furniture in it solo across the muddy destroyed roads on a six hour trip.

Cartel Controlled Areas and Cartell Controlled Violence

The county of Texas I moved to trying to leave Arlington Virginia near Washington D.C. was mostly Republican Party Red State with an electoral victory for Donald Trump and a white tough on crime prosecutor.

Within a short time of my arrival a Black Hispanic social Justice District Attorney was elected and chaos erupted in my life including sabotage to and loss of my vehical, racial assaults and sexually abusive assaults, said to sociology curious about who the new alt right person was by debates occuring in places like Good Samaritans Homeless shelter, said to be FBI and DHS backed racial study activity.

I have never been safe from increasing use of street gangs by espionage agencies who are hostile to me, using COINTELPRO pre-emption on me, in battles racial in nature and never wanted by me which also include stygmatizing me rather than studying me.

The level of clout to carry out abusive assaults on me and the level of US Government Agency interest in my genome was always baffling to me as I spent my life on the defensive from these attacks.

I now believe I, Justina Pelatier, Brittany Spears, Caitlyn Mahoney, and simply by geneology (rarther than FOXP2) Tom Dunham are espionage victims of the most powerful agencies of all which date back to Vienna Austria, the Von Trapps, underground railroads, and secret use of involuntary genome sciences, and now the most powerful agencies of the world have an espionage interest in a eugenically disastrous fall of my life into homeless shelter skid row blows exchanged death.

Means of income other than behavioral health care Social Security income have been conspired against, I can not get to High Tech meetups, cities, or social involvement in the California or Austin, and in homeless shelters derogatory evidence is planted.

I helive a cartel admires the secret history of my genome, but conceals the existence of it by cartel illegal activities of irregular warfare, and it is this money laundering cartel I believe killed Jen Moore and others, and it is that I am in flight from.

If that happens the espionage moles who misused my genome and are now black marketing it to themselves and others can continue to live comfortably, profitably, and whin elections with cartel money.

One might ask why don't I just file a lawsuit over this? Blind conservator ship along with the co-operation of my brother and magistrates, judges, others, to covert operations or classified operations (law suits "too hot to handle" as legal profession talk goes) prevent relief in the courts, secret programs tend to get secret co-operation and these are very powerful requester for co-opeation, DAPRA, FBI, DHS and others.

In addition to blind conservatorship problems pre-empting my own legal battles my brother Tom Donegan has largely backed others in getting my genome on charity markets in a way which both defames the alt right political belief system while transferring benefits to claimants that they have been harmed by alt right (right wing biggots) political people like myself.

His stepping in as the older brother to become the "emergency contact' when perhaps a fried or ally of him claimed to be me and created the "emergency" can get him shifted in as the person to handle a situation like asking the apartment in Austin to not let me move in, or asking the sheriffs personnel to keep me out of court hearings while he explains other interests in the case and how it should be handled, out interests conflicting though.

Since my written grammar is clipped, dropped conjugations or words, etc., and my speech is spasmodic and the gene for that is very rare, I easily am described as bipolar, retarded,

and lacking rational mental state.

Those are the wrong diagnosis of the speech, writing defect though. I am normal intelligent and rational.

The Cartel, Slush Funds from US v 323k, Dirty Wars, Dirty Work

See this on Youtube Jen Moore was killed as she reported on the slush fund I outed nearlyk the day of her death, the CIA slush fund racketeering and black marketing Glorian Donegan Genome and also monetizing it in a protection racket utilization of it.

OSS to CIA, black budgets, Operation Paperclip, & Hidden Identities

Task Force: Whistleblowers Journey:Live in DC

MK Ultra, Mind control, Pedophelia blackmail, secret societies, Jesuits

It is this cartel I fear for me life from, and frankly, if Seal Team Six or the media power of Brittany Spears can not stop the Rockefeller Rotschilds based plan, I have little hope of defense against it either despite my good lay legal knowledge and good plans combating the crime ring by documenting it, etc.,

Same things as Tom Dunham, applying our job skills in high tech to elucidate the important information on the illegal cartel espionage dirty racket.
